

Travel Itinerary:

State policy requires a travel itinerary be provided for each business trip no matter who the traveler is or the purpose/duration of the business.

- Please include departure and arrival dates, times, and physical location(s) for your *university business time*; you do NOT need to include each time you stop for a meal and/or for events/destinations once your business day has concluded.
- If approved for personal vehicle use and claiming mileage, please complete a [NAU Mileage Log](#).
- For meal claim (M&IE), please note any meals provided free of charge by a lodging establishment or attended event AND which meals you are claiming.
- Add additional lines/days as needed to the itinerary template below.
